

Learning Evolution with Darwin: The “Origin” in Contextual Science Education

Edited by Maria Elice de Brzezinski Prestes

Springer

Series title: History, Philosophy and Theory of the Life Sciences

Editors: Charles T. Wolfe, Philippe Huneman, and Thomas A.C. Reydon

PREFACE: FROM BIOLOGY TO DARWIN

Douglas Allchin

University of Minnesota, USA

Ch01 Introduction: Why learn evolution with Darwin?

Maria Elice de Brzezinski Prestes

University of São Paulo, Brazil

PART I. SPECIES TRANSFORMATION IN THE PRACTICES OF NATURAL PHILOSOPHY

Ch02 The complexity of the debate on the transformation of life in the 18th and 19th centuries in Europe

Pietro Corsi

University of Oxford, UK

Ch03 The Darwinian Not Too Strictly Balanced Arrangement Between Cuvier and Geoffroy Saint-Hilaire

Gustavo Caponi

Federal University of Santa Catarina, Brazil

Ch04 An Amazing Journey: Darwin and The Fuegians

Héctor Palma

National University of San Martín (UNSAM), Argentina

PART II. CONSTRUCTING A THEORY

Ch05 Darwin's Notebooks on Transmutation and first manuscripts on species

Janet Browne

Harvard University, USA

Ch06 Charles Darwin's Conceptual Change: From Natural Theology to Natural Selection

Kostas Kampourakis

University of Geneva, Switzerland

Ch07 Should Natural Religion Be Discussed Together With Natural Selection? On Darwin's Views of Some Religious Arguments

João F. N. B. Cortese

University of São Paulo, Brazil

Ch08 Mr. Darwin's Beloved Barnacles: Using Cirripedes to Test Evolution

Marsha L. Richmond

Wayne State University, USA

Ch09 Darwin, Wallace and the relationship between species and varieties (1858)

Viviane Arruda do Carmo

Municipal Secretary of Education of São Paulo, Brazil

Lilian Al-Chueyr Pereira Martins

Universidade de São Paulo, Brazil

**Ch10 There Were Some Previous Naturalists, but Still...:
Darwin's public account of predecessors**

Maria Elice de Brzezinski Prestes

University of São Paulo, Brazil

**Ch11 You Too Can Find "Grandeur in this View of Life": A
Linguistic Strategy for Resisting the Desire to Abandon
Reading Darwin's *Origin of Species***

Bárbara Jiménez-Pazos

University of País Vasco, Spain

PART III. Disclosing the Theory to the World

**Ch12 How Breeders Work Their Magic // OSCh01 Variation
Under Domestication**

Gregory Radick

University of Leeds, England

**Ch13 A Contemporaneous Read of Darwin's Ideas on
Variation // OSCh02 Variation Under Nature**

Roberto Rozenberg

University of São Paulo, Brazil

**Ch14 The Puzzles of Chapter 3 // OSCh03 Struggle for
Existence**

Bob Richards

University of Chicago, USA

**Ch15 The Newton of the Blade of Grass // OSCh04 Natural
Selection**

Michael Ruse

Florida State University, USA

**Ch16 How "Random" is Evolutionary Change? // OSCh05
Laws of Variation**

Sander Gliboff

Indiana University, USA

Ch17 The initial difficulties of Darwin's theory // OSCh06
Difficulties of the Theory

Roberto de Andrade Martins

Federal University of São Paulo (UNIFESP), Brazil

Ch18 A New Mirror of Nature // OSCh07 Instinct

Nelio Bizzo

Federal University of São Paulo (UNEFESP) and University of São Paulo (USP), Brazil

Lucas Marino Vivot

Graduate Student of Federal University of São Paulo (UNIFESP)

Ch19 Darwin for and Against Hybridism // OSCh08
Hybridism

Pablo Lorenzano

National University of Quilmes (UNQ), Argentina

Coming soon.

Ch20 From Old Objections to Novel Explanations: Darwin on the Fossil Record // OSCh09&10 On the Imperfection of the Geological Record & On the Geological Succession of Organic Beings

Charles H. Pence

Catholic University of Louvain, France

Ch21 "Seed! Seed! Seed!": Geographical Distribution in Darwin's *On the Origin of Species* // OS11&12 Geographical Distribution; Geographical Distribution – continued

Tina Gianquitto

Colorado School of Mines, USA

Ch22 The Meaning of Classification, Morphology, Embryology, and Rudimentary Organs to the Theory of Descent with Modifications // OSCh13 Mutual affinities of organic beings: morphology; embryology; rudimentary organs

Aldo Mellender de Araújo

Federal University of Rio Grande do Sul, Brazil

**Ch23 The Good Old Habit of Summarizing the Main Ideas //
OSCh14 Recapitulation and Conclusion**

Gerda Máisa Jensen

Bruno Fancio Lima

Marcelo Monetti Pavani

Laboratory of the History of Biology and Teaching, University of São Paulo, Brazil

PART IV. EPILOGUE: What was next?

**Ch24 Continuities and discontinuities between Darwin's and
Modern Synthesis' proposal**

Gisela Lamas

National University de La Plata (UNLP), Argentina

**Ch25 From the Modern Synthesis to the Other (Extended,
Super, Postmodern...) Syntheses**

Thierry Hoquet

University Paris-Nanterre, France
